Hello Insp

Attached are two plans from the other planning teams to support operations tomorrow (Mass Arrest Plan and Traffic/Tow Plan)

Here are the issues.

Mass Arrest Plan... You may have seen my earlier email to Insp Elves. The plan is there but no bodies attached to support. I'm not sure if we have a prisoner transport attached...I'll await his replay but will continue to try to confirm.

Traffic Tow Plan...here's the problem. No one will tow. Rob Cairn has been sent a couple of emails, one from Supt Patterson identifying a person that can tow using another truck (perhaps a OC Transpos vehicle). The second was from me and it indicated a truck mechanic from Ottawa willing to inspect trucks before they are driven away by someone other than an owner (eg. city AZ drivers).

I will hopefully get the name of who is supporting you tomorrow on the ground as the Ops Chief. I'll prepare the briefing information for that person so that they are good to go.

I'll touch base with you a little later tonight.

K
